

IEEE1588® Day 2010

Training for SW/HW engineers seeking knowledge on the new IEEE1588® standard for clock syncing over Ethernet.

Date: March 17th 2010

Location: [Israeli Air-Force Center](#), Hertzelia, Israel

Lecturer: Mr. Nikolaus Kerö, General Manager of [Oregano Systems GmbH](#), Austria, specialized in IEEE1588® standard.

Day Agenda:

- 09:00** Reception & Registration
- 09:15** General Introduction
- 09:30** Introduction into network based clock sync according to IEEE1588®
System requirements & application examples
Basic principles of clock sync
NTP in a nutshell
Comparison HW-SW solutions
Details on the IEEE1588® standard (version 1.0 vs. version 2.0)
Network related topics of clock synchronization
Application requirements: Everything is synchronized, what do we do now?
- 11:30** Traps & Pitfall of highly accurate clock synchronization
System related issues to cope with if sub 10ns accuracies are targeted
Hardware and IP core implementation related issues
FPGA vs ASIC implementations
- 12:30** Lunch
- 13:00** Software for clock synchronization
PTP Stack
Drivers
Layer 2 implementation
- 14:30** Oregano Systems SYN1588® product portfolio
- 14:45** Q&A and one on one sessions.

KAL Katav Associates Silicon Technologies LTD.

info@KALtech.co.il

Registration:

Registration form can be downloaded on line from:

http://www.kaltech.co.il/pdf/1588_Registration_form.doc

Please fill it in and fax it to: 04-6201328, or email it to: kal@kaltech.co.il

Price

1,200 NIS+ V.A.T include: CDROM with all presentations, application notes and articles, Printed hand outs, Beverages during the entire day and lunch.

Payment prior the IEEE1588® Day by Check or wire transferring.

I'm looking forward to see you!

Adi Katav
General Manager

Note- the organizers have the right to change or cancel the training with a written notice.

Trademarks belong to there's owners.
